FFICE OF THE DEAN

June 4, 1921

Mr. H. M. Quigley
157 E. Linn St.
Bellefonte, Pa.

My dear Mr. Quigley:

Last June the Trustees modified their vote by which the Honorary Degree of Bachelor of Arts for War Service was to be awarded. By their original vote it was necessary for a man to finish six semesters of work before entering the service. By their modified vote a man becomes eligible even though a part of the six semesters of work is done after he returns from service. We find on looking at your record that in accordance with the modified vote of the Trustees you are eligible for the Honorary Degree of Bachelor of Arts for War Service and we shall so certify to the Trustees. In order to receive this degree it will be necessary for you to be present at the Commencement exercises on Monday, June 20th.

at your earliest convenience whether you can be here to receive the degree at that time?

Very truly yours,

Serg Eduin Toower.

Dear Sir:

South America for the past fourteen months and expects to return to Bellefonte on Friday the 17th instant, at which time your letter of the 4th instant, concerning Honorary Degree of Datchelor of Arts for War Service, will be in his hands. If it is at all possible for him to be in Williamstown on Monday, June 20th, I feel certain he will avail himself of the offer extended by your College. In the event of his inability to be there would it be possible to have this conferred at some other time?

Yours very truly,

My dear Judge Quigley:

In answer to your letter of the 7th instant I am obliged to say that degrees are not awarded to men ordinarily unless they are here to receive them. Any exception to that rule must be made by the President and Trustees. If you receive information later that seems to show that your son isn't likely to be here for our Commencement exercises, you might write the President and Trustees or, at your request, I shall be glad to take the matter up with them to see if by any possibility the degree could be conferred upon him this year in absentia. If not, it would need to be deferred another year.

Yours very truly,

Georg Eduin Frons

In the Parent.

HIS report card is meant to serve as a medium of communication between parents and teachers. It contains records regarding Attendance, Deportment and Studies.

It is hoped the parents or guardians will cooperate with the teachers in bringing about the best possible results from school work, and that this report card will be regarded with more than passing interest.

The careful study of this report will help the parent know what work the child is doing in school; therefore the signing of it should by no means be a mere matter of form, but should carry with it the manifestation of a parent's interest in the educational welfare of his child.

The High School pupil is expected to do a greater part of studying at home, and by bearing this in mind the parent may do the pupil much benefit.

The grades have the following significance: A, "excellent"; B, "good"; C, "fair"; D, "passable"; and E, "failure".

A student whose grade is E must repeat the course or, if the course is elective, take, with the consent of the Advisory Committee, an equivalent one; in certain year-courses, however, the gaining of a grade as high as C in the second half of the course entitles to credit for the year.

If a student's work in any course is not completed because of excused absence from the final examination, he is reported incomplete (Inc.) in that course.
